I set up a conference line for 1-3 eastern time tomorrow
I do not know how to do the fancy invite thing
Call in number is 877-226-9607
Code – 8414002417
Mark please call in first with the leader pin – if I get dropped it will shut down the line
Some information – I figured the tech memo – Q&As that Josh came up with and the latest hot issues request would be enough to jog people's memory
Thanks,

Steve Wolfe

All,

Anne and I just spoke. We certainly won't have anything ready for the producer's trip to the Clyde area (today/tomorrow), but, we can certainly pull together a briefing document this week.
Steve, Josh, Maryann – are you available to talk tomorrow?
Thanks,
md

Mark,

As you know, Susan recommended that you'd be the best person to do a background interview with the PBS producer. OEAAE's Assistant press secretary Bo Delp is asking for talking points so he has an idea of how to summarize what EPA's role has been so far, what we've found and what we've done.

Can you work with Josh and Maryann on some draft bullets that we'd then share with the RA and Bo? This may involve rehashing a bit of what's on our web page.

Let me know. Thanks.

Can we get specific talkers together on a potential phone background interview for this? The producer is in OH now, correct?
